Nov 28. Friday evening

Dear Debora,

I had a comfortable ride out, my companions being Mrs Green & little South Parish people & a poor Irish woman & her child. I found Mary Ann here, that she had arrived the day I came in town, but that they had got along very well with her. She appears to me rather low spirited, but it may be my fancy. She & Lucia were waiting tea at Grandmas. I shall press her to stay till after I come Thanks for inviting & come in town with me. All at home are pretty well. Elizabeth Sampson has returned to Cambridge. Scollet is out in today's paper congratulating the Atlas upon having come out victorious. As to the correspondence between the "wet & dry whigs" he thinks the two Richards who act as secretaries in both parties must have a amusement in looking over matters & composing notes together. Mr is in the midst of her Thanksgiving shopping & fixing. Caroline & you or Henry & any two may come just how or when you please.

Send the papers & write by Mr K. Also as soon as you get this carry Mary Ann's letter to Edwards office & write with a pencil on the outside that if he leaves a letter before such a time at least it will be sent to Mr
